# #LETSJAYCO

When you travel with Jayco, fun is the only thing on the agenda. That's because we go the extra mile so you can live in the moment. From comfortable, amenity-packed floorplans to weather-shielding insulation and superior frame construction, you'll have everything you need to adventure every day and make yourself at home every night. Let's get away. Let's make it count. Let's Jayco—and make memories that last a lifetime.

## GENERATIONS OF FAMILY FUN

# GREYHAWK

WE CARE ABOUT GETTING THERE AS MUCH AS BEING THERE

There may be bumps in the road—but you won't feel them in your 2016 Greyhawk. With every engineering and construction detail, we kept smooth handling—and unbeatable value—in mind.

## JRIDE PLUS

### A GREYHAWK STANDARD

JRide Plus is a powerful blend of precise handling and renowned stability.

Put JRide Plus to the test—and rule out the competition.

**1. Bilstein® shock absorbers** feature a unique monotube gas pressure design that provides optimum ride quality and vehicle control; Bilstein shock absorbers last 2-3 times longer than the conventional twin tube piston and are found in many high-end luxury vehicles (see photo)

**2. Hellwig® helper springs** work with the chassis' existing springs to give the RV more support, improving sway control under heavy loads

**4. Computer-balanced driveshaft** ensures reduced shudder and vibrations, and efficient power transfer to the wheels

**3. Rubber isolation body mounts** are positioned near the tires to absorb road shock, dampen noise and minimize vibrations

**5. Oversized sway bar** raises and lowers each side of the unit to similar heights, reducing sideways tilting when cornering

31FS	32' 5"	100"	11' 6"	84"	223"	33	41	32

**Gross Vehicle Weight Rating (GVWR):** The maximum permissible weight of the motorhome, including the Unloaded Vehicle Weight (UVW) plus passengers, personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the Cargo Carrying Capacity.

**Gross Combined Weight Rating (GCWR):** The maximum allowable combined weight of the motorhome used as a tow vehicle and the attached towed vehicle.

It is important for your safety and enjoyment that you are aware of the weights and tow ratings of the RV you select. Consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your RV before heading out on the roadways. When you tow a vehicle with your RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. Refer to that label to verify the vehicle will meet your requirements. See specifications chart above.

# LET'S JAYCO—AND ENJOY EVERY MILE.

We know that your family fun rides on our commitment to quality. So we go the extra mile to make products that last—and stand behind them longer than anyone in the business.

## THE JAYCO DIFFERENCE

When you go with Jayco, you get one of the industry's strongest frames and rock-solid construction.

1. **Seamless fiberglass front cap** for increased durability and ultimate weather protection
2. **750-pound overhead bunk capacity** offers nearly 250 pounds more than the industry average for greater safety and peace of mind
3. **Integrated electric step** maximizes ground clearance and floor space
4. **Third brake light** is a Class C first that improves safety on the road
5. **Seatbelts in every position** secure the most precious cargo

Generations of family fun.
