MAKING THE RIDE EVEN SMOOTHER

Our family is proud to stand behind every Entegra Coach we build. In fact, our coverage is so comprehensive, we invite you to compare it to that of other manufacturers—we think you'll find we're in it for the long haul.

The Entegra Coach limited warranty covers your coach for two years, or the first 24,000 miles of use, whichever occurs first. For more information, visit EntegraCoach.com.

THE QUIETEST RIDING, BEST HANDLING COACH ON THE MARKET TODAY. PERIOD.

HERE'S WHY

1. SPARTAN® CHASSIS

Every Spartan® chassis comes with a best-in-class 3-year/50,000-mile transferable warranty, with no deductibles. Spartan® chassis also boasts an industry-best, 20-year transferable warranty on the frame as well as a Cummins® 5-year/100,000-mile engine warranty and an Allison® 5-year/200,000-mile transmission warranty.

Included in the limited warranty is roadside assistance provided by Coach-Net®, which offers service/towing through 40,000 service and repair facilities in the U.S. and Canada.

2. EXCLUSIVE X-BRIDGE™ FRAME

Our exclusive X-Bridge™ frame adds even more floor strength and structural rigidity, eliminating chassis flex and twisting; with it, the suspension—not the chassis—absorbs road shock and vibration.

3. FIVE-INCH-THICK FLOORS

The industry's thickest floor starts with a ¾" 7-ply plywood for dramatic reductions in energy transmission, noise and vibration. Cabinets are screwed directly to the wood and tile is laid precisely around them; other manufacturers place cabinets on top of the tile, causing squeaks or cracking.

4. RESIDENTIAL-STYLE WALLS AND ROOF

Our roof combines crowned aluminum truss rafters on 16" centers with Flexfoil®, fiberglass insulation and ¾" plywood decking. Our sidewalls and rear cap are the ONLY triple-insulated walls on the market. Featuring Styrofoam™, Flexfoil® and glued batt insulation, our triple-insulated walls keep the coach quiet, and you comfortable, on the inside.

5. E-Z STEER™ ADJUSTABLE POWER STEERING ASSIST

The E-Z Steer system engages during turns and specific highway driving conditions to assist drivers when it's needed most. With E-Z Steer, turning requires less effort, even at low speeds, to make longer drives more enjoyable, engaging the rear tag axle in coordination with the front wheels makes turns 15-20% tighter, turning the wheel at a dead stop makes pulling in and out of campsites or storage easier and handling is vastly improved in high crosswinds.

A BEAUTIFUL JOURNEY

Easy driving and enjoyable features are the showstoppers when it comes to the all-new 2023 Aspire Class A Motorhome. This luxury coach rides on a Spartan® K2 chassis with a Cummins® 450HP engine. Thanks to the E-Z Steer™ adjustable power steering assist, drivers are sure to enjoy the ride, while taking in the iconic panoramic view Class A's are known for. The stunning upgrades of this model don't end with the E-Z Steer technology. In fact, they extend to the interior with premium leather Crown Compass furniture in the living area. A 15 inch digital dash with an integrated 360° camera will put your mind at ease, and allow parking and backing up to be a stress point of the past. It's time for you to enjoy the journey as much as the destination.

Gross Vehicle Weight Rating (GVWR): The maximum permissible weight of the motorcoach, including the Unloaded Vehicle Weight (UVW) plus passengers, personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the Cargo Carrying Capacity. Gross Axle Weight Rating (GAWR): The maximum allowable weight each axle assembly is designed to carry, as measured at the tires, therefore including the weight of the axle assembly itself. Gross Combined Weight Rating (GCWR): The maximum allowable combined weight of the motorcoach used as a tow vehicle and the attached towed vehicle.
