

MEET THE SOLIS® POCKET™

Winnebago's most affordable camper van, the new Pocket, is designed for life on the go, with extended-season capability and a flexible floorplan you can customize for relaxing, working, or socializing.

Extended-season capability lets you camp in comfort, thanks to the Truma VarioHeat heating system, extensive insulation, and locating all water tanks, valves, lines and pump inside the coach.* The Pocket has earned Truma's Gold Certification for cold weather capability.

Versatile living space features a dinette that converts to a sofa, daybed or love seat, an adjustable/removable table, swivel cab seats and plenty of storage options.

Convenient, removable 20-pound propane cylinder is securely located inside the coach for extended-season use, and can be easily filled or exchanged.

Flexible galley offers functionality inside and outside the coach, with exterior table, stainless steel sink, two-burner cooktop and forward-facing refrigerator. Remove the cushions on the passenger side to reveal an extended countertop surface that's ideal for food prep.

Efficient RAM Promaster® chassis provides significant ground clearance, is easy to maneuver and park with its 136-inch wheelbase, and features a digital rearview mirror that converts from a reflective mirror to a real-time video stream.

MOLLE (Modular Lightweight Load-carrying Equipment) panel can be used to secure the Pocket's removable galley storage pack, outdoor gear, or other accessories.

Cross-coach Murphy+ platform bed is set at a higher point to allow bicycle and other gear storage below the bed using the L-track cargo tie-downs and/or MOLLE panel.

Multi-use storage along the dinette sidewall supports remote workers with bottom-hinged storage cabinets for files, laptops or supplies, pockets for storing and charging electronics, and cupholders.

* Winnebago recommends following the winter use guidelines and winterization procedures outlined in your owner's manual whenever camping in freezing conditions.

The Winnebago logo is displayed in a bold, white, sans-serif font with a horizontal line through the middle of the letters. It is positioned in the bottom left corner of the page, partially overlapping the image of the van's rear.
