

BRINKLEY

RE-CREATING THE RV EXPERIENCE

MODEL G & MODEL Z FIFTH WHEELS

WHO IS BRINKLEY RV?

Our ownership team is comprised of five equal partners representing decades of RV experience. We have a strong track record of creating and influencing some of the industry's most successful RV companies, including many of today's top-selling fifth wheel and travel trailer brands.

We've noticed a distinct shift in the RV industry in recent years and felt a sense of responsibility to our customers to re-ignite cutting-edge innovation and bring back customer-driven product designs that will raise the bar for everyone. More importantly, we saw a gradual decline in quality and a skewed perception of what it means to take care of the customer. We are excited to prove to our customers that there is a better way. **We are passionate and committed to building high-quality RVs and servicing them like never before!** We encourage you to research us and Brinkley RV. The more you know about us, the more you'll see that we're building something different. We are relentless in our pursuit of the **ULTIMATE CUSTOMER EXPERIENCE!** We will never stop in our quest to be the best and most reputable RV manufacturer in the industry.

Thank you so much for learning more about Brinkley RV. We sincerely want to be spectacular and earn the strongest reputation in the industry. We will never quit pursuing the ultimate customer experience — **YOU HAVE OUR WORD!**

Model Ryan H. Hill F.L.

A FEW THINGS BRINKLEY IS DOING DIFFERENTLY

PRODUCT DESIGN

The owners of the company are responsible for product design. They are passionate about living the RV lifestyle and testing them firsthand in order to create phenomenal products. The look, the features, and the quality levels are all driven by the insights they have collected from speaking with customers, addressing problems, and using the RVs before bringing them to market. We like to live by the mentality, *"When you live the lifestyle, you become the customer."* **We started each product line by identifying all the issues that have plagued our industry for years and built the solutions into the design.** We challenged existing processes, materials, technology, and even our suppliers to deliver a better quality coach we could be proud of.

TAKING CARE OF YOU, OUR CUSTOMER

We will do what is right! We strive for perfection, but unfortunately, problems will arise. When they do, **WE HAVE YOUR BACK** and will do what it takes to get you back on the road. We do this by supporting our dealers and working hand in hand with them regarding service to make it as seamless as possible. We are also committed to quickly and accurately expediting parts to ensure you get back on the road as soon as possible.

PRIVATE COMPANY

We have all worked for privately held and publicly traded companies, and there are certainly benefits to both. Today, almost every RV company is publicly traded. However, when you are developing your culture, responding quickly to the market, and making decisions that impact your customers, it is a huge advantage to be private, like Brinkley RV. Sometimes even well-intentioned public RV companies are under too much pressure to create short-term gains at the expense of long-term quality and creating customers for life!

We invite you to learn more about the brand, our people, and the Brinkley Way. Watch an interview with our owners and the team at BrinkleyRV.com/interviews

QUALITY

Everyone talks about quality, but it is incredibly disappointing what most of our industry is delivering. We are dedicated to producing the highest quality RVs. It begins with **intelligent designs** and a steadfast **commitment to quality** throughout the organization. However, it takes robust checkpoints to confirm that we deliver on our promise. In addition to production line checkpoint inspections, each and every Brinkley undergoes a vigorous off-road simulation and a battery of testing through our PDI process, covering over 500 items before your RV ships to the dealer. We have committed a tremendous amount of time and effort on the front end to **KEEP YOU CAMPING AND OUT OF THE SERVICE SHOP!**
