

MEET THE NAVION

The new Winnebago® Navion® is at the leading edge of RV innovation, offering unmatched freedom and functionality. Its innovative design, featuring a luxurious interior and state-of-the-art tech, redefines what it means to travel in style.

Your Personal RV Companion

The Navion comes standard with Winnebago Connect™, our all-new intelligent RV platform that seamlessly integrates with your Winnebago app. It provides travel prep resources, automated controls with smart energy management and more.

Lithium Power Package

The all-new lithium power package comes standard with a 320-amp-hour lithium battery and dedicated second alternator to charge the batteries faster while driving. The lithium battery and 240W solar panels work together to help ensure you'll have clean and quiet power when shore power isn't available.

Redesigned Luxury Interior

Discover a modern, open space with innovative amenities like the power-reclining theater seating/Murphy+ bed combo (usable with slide in) and redesigned passenger-side dining area (24T), or cross-aisle bath and convertible private bedroom (24R).

Storage Galore

Bring just about anything you want with the all new gear garage that easily fits 2 bikes, along with a residential size wardrobe (24T) or wardrobe under bed storage (24R).

Available AWD Sprinter Chassis

Winnebago offers an optional Mercedes-Benz® all-wheel-drive Sprinter chassis featuring a 2.0L high-output turbo diesel 4-cylinder engine and 9-speed automatic overdrive transmission. Those who opt for AWD will enjoy higher ground clearance to better handle adverse weather conditions and more rugged terrain.

Available Low-Profile Front Cap

The optional low-profile front cap gives you even more storage space, as well as a sleeker look. Designed so that the storage is accessible when the slide is in, this convenient addition also features interior LED lighting.

Weights & Measurements	24R	24T
