2026MY at a Glance

New Exterior Paint Design and Six New Colours

All-New Entry Door (Unity)

New Tail Light Design

Captain's Chair Covers

Two-Burner Induction Cooktop

Truma Aventa Air Conditioner with Heat Pump

Galley Countertop Extension Drawer (Unity Corner Bed and Unity FX)

4.0 RVMP Generator (Optional on Unity, Standard on Wonder)

All-New Entry Door (Unity)

The all-new, European entry door features a new dual latch and hinge system providing a tighter and more secure seal. Inside the door are integrated pockets adding additional storage—perfect for frequently accessed items when leaving your RV.

The new retractable screen door is easier to use and more convenient when coming and going throughout the day.

To keep up with aesthetics, the integrated window shade's sleek appearance is neatly contained within the door for a minimal look. The integrated retractable bug screen was designed to keep insects out while allowing fresh air to flow into your RV.

The painted trim on the exterior of the Unity entry door adds a high-end appearance and ties the door into the overall exterior color scheme of the motorhome. This update not only looks sleek, but complements the modern European design.

The door's solid frame construction features rounded corners, offering a more refined look and improved sealing.

Two-Burner Induction Cooktop

A two-burner induction cooktop will be standard for the 2026 model year. Features include built-in safety functions for peace of mind while cooking on the road, quick touch level selection, exact temperature settings up to 450 degrees Fahrenheit, and a timer setting.

Updated Captain's Chair Covers

Adding to the interior of each Leisure Travel Van, the captain's chairs will receive a fresh look with premium covers.

Preliminary information. Subject to change without notice. Revised June 5, 2025.
